

How He Cured His Rupture

His Captain Cured His Own Rupture After Doctors Said "Operate or Die." His Remedy and Book Sent Free.

Captain Collins called the seas for many years, then he sustained a bad rupture that seemed to him to be a life sentence. He tried doctor after doctor, but none of them would operate. Finally, he was assured that he must either submit to a dangerous and abortive operation or die. He did neither. He cured himself instead.

Captain Collins made a study of himself and his condition and at last he was rewarded by the finding of the method that so quickly made him a well, strong, vigorous and happy man.

Anyone can use the same method. It's simple, easy, safe and inexpensive. Every ruptured person in the world should have the Collins Remedy Book, telling all about how anyone may follow the same treatment in their own home, without any trouble, expense or delay.

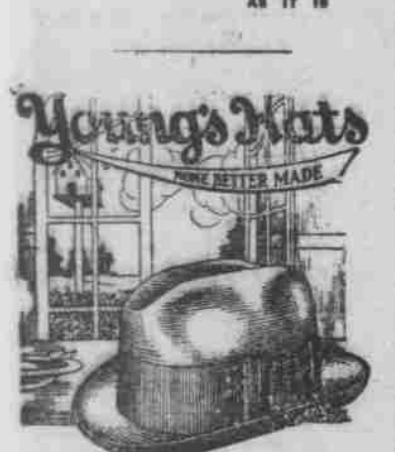

FREE. They will be sent prepaid to any ruptured sufferer who will fill out the coupon below and send it right away.

This is in keeping with the policy of the Chamber, past investigations of unknown solicitors coming into Norwich for subscriptions pertaining to various matters.

The Chamber desires to call the attention of the people to its efforts to secure the removal of the Chamber of Commerce from the people relative to bogus solicitors. SALTS IN HOT WATER CLEARS PIMPLY SKIN

Says we must make kidneys clean the blood and pimples disappear.

Pimples, sores and boils usually result from toxins, poisons and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

It is the function of the kidneys to filter impurities from the blood and cast them out in the form of urine, but in many instances the bowels create more toxins and impurities than the kidneys can eliminate, then the blood uses the skin pores as the next best means of getting rid of these impurities which often break out all over the skin in the form of pimples.

The surest way to clear the skin of these eruptions, says a noted authority, is to get from any pharmacy about four ounces of Jad Salts and take a tablespoonful in a glass of hot water each morning before breakfast for one week. This will prevent the formation of toxins in the bowels. It also stimulates the kidneys to filter the blood, thus coaxing them to filter the blood of impurities and clearing the skin of pimples.

Jad Salts is inexpensive, harmless and made from the acid of grapes and lemon juice, combined with lithium and sodium. Here you have a pleasant, effervescent drink which usually makes pimples disappear, cleanses the blood and is excellent for the kidneys as well.

CHATS WITH YOUR GAS MAN

If you are using defective gas tubing, discard it. Do not mend it.

It is criminal carelessness to try to keep in use gas tubing that will permit even an infinitesimal amount of gas to escape, by patching it with tape, putty, rags, soap, or bread dough, as has been shown upon investigation to have been done in many instances.

Worn-out gas tubing should be replaced by purchasing only the best grade of tubing. It may cost a few cents more, but it is worth it.

Ask for and insist upon having only the highest grade, for such tubing is absolutely odorless and will last longer than the inferior articles, which are sold for a cent or two less per foot than the superior make.

Customers who need tubing purchase wisely when they come to this office. Only the best grade of tubing and that best fitted for the service required, is permitted to be sold.

CHARGES GRANGE FAIR ASSOCIATION JUGGED FIGURES

A sworn statement has been filed with Secretary Leonard H. Healey of the state board of agriculture by A. T. S. Clark, a member of the Haddam Neck Grange Fair Association, alleging that in the financial statement of the association filed with the secretary, upon which the state appropriation is based, "facts have been misstated and figures misquoted," and enters a formal protest "against the Grange Fair Association from the state of Connecticut to the Haddam Neck Grange Fair Association."

Secretary Healey has required E. C. Clark of East Hampton, secretary of the association, to submit additional information and a detailed account of the association's doings during the past year, and has set a hearing to be held at his office at 11 a. m. on Thursday.

Mr. Clark alleges that there has been an attempt on the part of the association to juggle its accounts in such a way that it will receive under the scheme of state appropriations to fairs, a much larger sum of money than the amount to which it is entitled. The association's financial statement shows that it has received from certain sources \$12,113.77 whereas Mr. Clark alleges that the true amount does not exceed \$100. The association states that it has paid premiums on exhibits of swine aggregating 34 head while Mr. Clark swears that there were no exhibits of this nature whatsoever.

According to Mr. Clark, the statement should show stock sold to the amount of \$600, but no such sales are indicated. Mr. Clark also alleges that the number of stockholders is misstated and that there is a difference of \$20.82 between the association's statement and the bank statement.
